Payroll

Profitable Payroll
with Automatic Enrolment

The issue:
Every client with employees will need to stage and enrol their workers. Only 2% of UK companies have successfully completed AE, with 770,000 SME's staging over the next two years.

KashFlow Payroll brings you a complete Automatic Enrolment solution to automate your entire Automatic Enrolment process at scale, including;

- Pension Scheme Wizard
- Assessment
- Communications
- Output Files
- E-Payslips and P60's
- Affordable monthly pricing in both solutions

Automatic Enrolment gives accountants and payroll professionals a unique opportunity to grow their practice and add value to their proposition for new and existing clients.

Automation at your finger tips Automatic Enrolment in KashFlow Payroll is specifically designed with the accountant in mind. We take care of all the complexities and day to day tasks involved in Automatic Enrolment so that you don't have to. KashFlow Payroll will;

- Assess each employee within a single payroll run and enrol eligible employees
- Generate required communications for each employee based upon the outcome of the assessment
- Generate output files to enable direct communication with chosen pension providers on behalf of your client
- Dedicated pension reporting module to enable you to communicate your clients pension activity to them directly

What is the opportunity?
4/10 business leaders regard implementation of AE as the biggest challenge over the coming years. Payroll will play a vital role in ensuring the success of AE and small businesses will be relying upon their accountant to ensure compliance and minimal disruption to their business.

By offering Automatic Enrolment services to your clients you can add additional revenue streams and add value to your proposition as a trusted source of information.
